STATUTORY MEETINGS

The **XIX General Assembly of the Adriatic Ionian Euroregion** was successfully held on-line on 15 December 2023.

President Nikola DOBROSLAVIC and Secretary General Francesco COCCO led the Assembly, which was attended by a good number of representatives of the AIE Member regions.

The Assembly approved different documents:

- the Activity Report 2022-2023
- the Report on the activities and the organization of the Secretariat
- the 2022 official financial statement
- the annual membership fee 2023-2024 that was reconfirmed in the same amount.

As far as the Governance of the Association (ITEM 4), the General Assembly unanimously elected the following bodies of the Adriatic Ionian Euroregion:

- Nikola DOBROSLAVIĆ (Dubrovnik Neretva County) as President and legal representative
- Aldrin DALIPI (Tirana Regional Council) as Vice President Vicarius
- Marco MARSILIO (Abruzzo Region) as Vice President
- Francesco COCCO as Secretary General

The Secretary General presented the report on the activities of the Secretariat, and illustrated the projects presented and implemented during the year by the AIE.

The Executive Committee will be composed by the following members Nikola DOBROSLAVIĆ (Dubrovnik Neretva County), Aldrin DALIPI (Tirana Regional Council), Marco MARSILIO (Abruzzo Region), Boris MILETIĆ (Istria Region), Luca ZAIA (Veneto Region), Massimiliano FEDRIGA (Friuli Venezia Giulia Region), Marina DUHANI (Shkodër Regional Council), Marija BUHAČ (Herzegovina Neretva Canton), Francesco ROBERTI (Molise Region), Vladimir JOKIĆ (Municipality of Kotor).

EUSAIR FORUM AND RELATED INITIATIVES

The **9th Forum of the EU Strategy for the Adriatic-Ionian Region (EUSAIR)** took place in Šibenik (HR) from 15 to 16 May 2024 with the title *“Shaping the Future of EUSAIR”*.

The event has brought Croatia’s Presidency to a successful completion of its mandate, with the signing of the **Šibenik Declaration**, a document that reflects the common efforts and achievements and outlines the way forward for both the EUSAIR and the Adriatic Ionian Initiative.

The Forum gathered 650 participants including high-level officials, representatives of EU institutions and stakeholders from all EUSAIR participating countries and over .

The Croatian Minister of Regional Development and EU Funds, Šime ERLIĆ, opened the Forum underlining the added value of the EUSAIR, and stressing the importance of cooperation and Cohesion Policy post-2027, as well as the establishment of a fifth Pillar dedicated to improving social cohesion in the region.

THREE KEY TOPICS

One of the central themes of the Forum was **Cohesion Policy post-2027**, following a preparatory conference co-organised by the European Committee of the Regions, the Interact Programme and the Croatian Presidency.

The Annual Forum continued discussing this issue through a “High-Level panel” and a “Stakeholder Consultation” jointly held by the Interreg IPA ADRIION and Italy-Croatia programmes and EUSAIR stakeholders. Also, a “Stakeholder Consultation on a EUSAIR perspective on Cohesion Policy post-2027” was launched by the EUSAIR Facility Point.

A second topic of the Forum was the **EUSAIR revision process**, aimed at rejuvenating the Strategy and making the Strategy more relevant and up to date in consideration of the inclusion of North Macedonia and San Marino, as well as more operational and more capable of effectively addressing the new and future challenges. The revised EUSAIR Governance Architecture was also presented.

The Forum also acknowledged the inclusion of the **fifth Pillar “Social Cohesion”**, aimed at aligning the Adriatic Ionian Region with with the fourth EU Cohesion Policy objective and the broader framework of green and digital transition.

Handover of the Presidency from Croatia to Greece.

AND A SPOTLIGHT ON YOUTH

Youth engagement is a key aspect of the renewed EUSAIR, marked by the establishment of a EUSAIR Youth Council (EYC) in Autumn 2024. With it, youth of the Adriatic-Ionian Region gain a platform for collaboration and active participation in shaping the socio-economic development of their living spaces. The creation of the EYC followed a bottom-up approach. Under the coordination of the Croatian Presidency, a **EUSAIR Youth Task Force** conducted a wide consultation to collect opinions of young people on the role, scope, and representative mandate of the Council. An open Call for Application and a selection of young people were held to form the first EYC.

The AIE Secretariat staff participated in the 9th EUSAIR Annual Forum and contributed with several sessions to its rich programme with one of the two youth-related events: the **6th Adriatic Youth Organisations Forum (AIYOF6)**. Organised in coordination with the Croatian Presidency, the EUSAIR Facility Point and the Adriatic Ionian Initiative, the AYOF6 was held on 15 th May and focused on presenting “EU opportunities for creating an ecosystem of informed young stakeholders to shape the future of the Adriatic-Ionian Region”.

The event included the “*Networking Talks session*” where the member organisations of the **Adriatic Ionian Youth Network (AIYN)**, who contributed to discussing the opportunities and challenges of including youth within the EUSAIR family and its structures.

EUROPEAN WEEK OF REGIONS AND CITIES

EU enlargement is back on the political agenda of the Union and was the leitmotiv of the 22nd edition of the European Week of Regions and Cities (EWRC) that took place from 7 to 10 October 2024 in Brussels.

As part of the EWRC, a Political WorkShop was held on 9 October at the premises of the European Committee of the Regions (CoR), with the active participation of AIE’s President, Nikola DOBROSLAVIĆ, CoR member and Rapporteur on the 2023 Enlargement Package. The session focused on **EU Enlargement: an opportunity and a challenge for European cities and regions**, and was an occasion to discuss the several challenges of the enlargement process, including geopolitics, economy, social protection and democracy.

Enlargement was recognised as strategic to the EU interests and a catalyst for progress of candidate and potential candidate countries. A greater role of EU cities and regions was seen as key to the positive outcome of the process.

PARTICIPATION IN EUROPEAN PROJECTS

Building capacities in the framework of European Territorial Cooperation

Sustainable tourism

Innovative sustainable economy

GEAR UP!

Global citizenship Education Actions to strengthen youth engagement through local support to LAs and CSOs, to accelerate Progress towards sustainable development

MAIN DATA

Duration: 1 January 2024 / 30 June 2027

Programme: EU Dear Programme

Role of the Euroregion: Project Partner

Topic: Global Citizenship Education

Lead Partner: Marche Region (Italy)

Website:

www.dearprogramme.eu/project/gear-up/

SPECIFIC OBJECTIVES

- To support initiatives of LAs and CSOs in 8 EU countries and 5 IPA countries through financial support to third parties, aimed at raising awareness and critical understanding of global agenda on development and “global/local” interdependencies, and to empower them to take part in participatory processes and in local decision making
- To strengthen skills, competences, exchange processes and resources of LAs and CSOs concerning Global Citizenship Education (GCE)
- To increase awareness and sensitivity towards Sustainable Development and global challenges among young people aged 15-30 living in the 8 EU and 5 IPA territories
- To increase knowledge and awareness on gender and non-discrimination field, as a key concern among policy makers, associations, networks and young people, strengthening partnerships for the advancement of gender equality and intersectional approach and ensuring a balanced application in the implemented activities in terms of practices and policies.

IN A NUTSHELL

GEAR UP! aims to accelerate progress towards sustainable development by promoting and enabling the active engagement of EU citizens, especially young people, in development issues and addressing global challenges at local and global levels.

Small and medium sized regionally and/or locally operating Local Authorities (LAs) and Civil Society Organizations (CSOs), facing financial and administrative difficulties in applying for EU funds, will be supported through sub-granting, capacity building and networking activities.

The financed organisations will tackle one (or more) project topics such as Sustainable Development (SD), SGDs and gender issues, in relation to active citizenship.

TERRITORIAL COVERAGE

The action will develop in Italy, Spain, Germany, France, Czech Republic, Latvia, Croatia and Hungary with a focus on IPA Countries, through previously established co-operation and networking of co-applicants.

The GEAR UP! project will engage at least 105 LAs and 335 CSOs, providing them with the necessary resources, training, and support to implement GCE activities and effectively engage with their communities.

Based on ongoing partnerships with various LAs networks and CSOs active in Western Balkans, the AIE will facilitate capacity building and sub-granting process in Albania, Bosnia and Herzegovina and North Macedonia. Project partner CROSOL will complement the action, by focus on Montenegro and Serbia.

GEAR UP! will allow continuity for AIE's youth engagement actions in the Western Balkans, this time with a particular focus on promoting awareness on climate change, sustainable development, gender equality issues as part of the UN 2030 Agenda for Sustainable Development.

KICK-OFF-MEETING IN ANCONA

The GEAR UP! project consortium convened in Ancona (IT) from 6 to 7 March 2024. The project Kick-off-Meeting (KOM) was hosted and organised by Marche Region, AIE member and Lead Partner. The AIE Secretariat team, Carmela Vaccaro, Maria Luisa Esposito and Andrea Di Girolamo, participated in the event.

During the KoM, Maria Luisa Esposito shared the results of the youth engagement activities carried out in the Western Balkan countries, which stimulated participatory and bottom-up approaches and, as a result, brought to the creation of the first transnational youth network in the Adriatic Ionian area: the Adriatic Ionian Youth Network (AIYN). The AIE/AIYN collaboration will continue under the newly established Working Group on Youth as approved by 19th AIE General Assembly.

STEERING COMMITTEE IN RIGA

On 6 November 2024, The Latvian Platform for Development Cooperation (LAPAS) and the Riga City Council organized and hosted the GEAR UP! Steering Committee in Riga (LV).

Project partners discussed vital planning topics, including third parties' support, communication strategy, upcoming training sessions and other activities.

The AIE Secretariat staff informed the partnership about its plans to organise two GEAR UP! events in early 2025, one in Albania and one in Bosnia Herzegovina, the latter will be the occasion to launch a Call for projects addressed to LAs and CSOs, particularly youth organisations, based in Albania, Bosnia Herzegovina and North Macedonia.

YOUTH EVENT AT THE 9TH EUSAIR FORUM

On 15 May 2024, within the general framework of the EUSAIR Annual Forum, the AIE organised the **6th Adriatic Ionian Youth Organisations Forum (AIYOF6)**, as supported by the project GEAR-UP! and the Interreg IT-HR DEMY-COOP projects.

The event was intended to create a connection among the several European Territorial Cooperation (ETC) and EUSAIR stakeholders at all levels of governance such as DG REGIO of the European Commission, the EUSAIR structures and stakeholders and the youth.

The event was opened by the Euroregion's President, Nikola DOBROSLAVIĆ, and saw the participation of representatives of the Croatian Ministry of Foreign and EU Affairs managing the AI/EUSAIR Croatian Presidency, the Cohesion Policy Department at the Italian Presidency of the Council of Ministers, the Italian Ministry of Foreign Affairs and International Cooperation, the Adriatic Ionian Euroregion, the Marche Region and the Town of Sibenik also participated in the Opening Session.

In a technical session, the Marche Region representative, presented the GEAR UP! project and the related opportunities for youth organisations.

The final session saw the participation of AIYN representatives, three local youth organisations and many other local youth, who discussed youth perspectives about EUSAIR-relevant, cross-sectoral and most pressing issues such as "Sustainable Tourism", "Social Digital Innovation", "Cultural and Creative Industries" and "Circular Economy".

Their contributions are collected in Volume 1 Issue 1 of the *Adriatic Ionian Youth Engagement and Cooperation Journal* and can be checked by scanning the following QR code:

COMMUNITY4TOURISM

MAIN DATA

Duration: January 2023 – December 2029
Programme: Interreg EURO MED
Role of the Euroregion: Project Partner
Topic: *Enhancing sustainable tourism in the Mediterranean*
Lead Partner: Diputació de Barcelona (Spain)
Website:
www.sustainable-tourism.interreg-euro-med.eu

MAIN OBJECTIVE

The project is based upon the main objective of improving a better governance of cooperation, both policy governance and multi-sectoral, multi-level and transnational territorial governance, with a strong focus on environment and climate, promoting a smarter and greener Mediterranean, which is in line with the European Green Deal, the Sustainable Development Goals (SDGs) of the United Nations Agenda 2030.

C4T integrates the four Programme's specific objectives, as tourism has shown to be a transversal issue in the MED area, involving all kinds of stakeholders, agents and territories. It will address its activities to pursue the consolidation of a competitive innovation ecosystem, support a circular economy, promote climate change adaptation, and enhance nature and biodiversity. As a result of its activities, it will come up with jointly developed solutions and promote cooperation across borders.

IN A NUTSHELL

Community4Tourism (C4T) is an Interreg EURO MED Thematic Community project coordinated by the Barcelona Provincial Council and falls under the program's Mission "*Enhancing Sustainable Tourism*". It is a seven-year project that aims to contribute to the EU Territorial Cooperation and its transnational dimension through the objectives included in the Programme and the main goals of Mission 4, related to the enhancement of sustainable tourism in the MED Area and the transition towards a climate-neutral and resilient society.

The project is built upon the outputs of the Interreg MED 2014/2020 Sustainable Tourism and BleuTourMed Projects but reinforces its objectives to current new challenges.

The project ensures also the necessary synergies with the Dialogue4Tourism, the other governance project of the tourism mission, and other EURO MED initiatives and stakeholders to ensure the capitalisation of the project results in other territories, improve multi-level governance and contribute to supporting macro-regional and sea basin strategies in the basin. The Adriatic Ionian Euroregion has a key role in the project as leader of the Transferring Work Package and activities.

MEETING IN ROME

On April 10 and 11 2024, the Thematic Community of the Sustainable Tourism Mission organised its Kick-off Meeting (KoM) at the International University in Rome. The event saw the participation of the Thematic Projects and Governance Projects of the Sustainable Tourism Mission, together with experts of innovation, circular economy, climate change, nature and biodiversity. The KoM welcomed ten new Interreg EURO MED projects, accounting for over 80 organisations, and helped building connections and synergies. It provided the space for sharing the plans and the strategies of the C4T project to support the project's activities, the transferring and capitalisation of their results. The KoM was also the occasion to hold the 1st Annual Meeting of the Mediterranean Clusters, one of C4T central proposals to fulfill its main objectives.

The AIE Secretariat was involved in the organisation of the event as partner of the C4T project. The AIE team presented the Work Package "Transferring" and coordinated a working group on innovation.

MEETING IN MARSEILLE

In the first week of July, the AIE actively participated in a meeting held in Marseille, organized by the Joint Secretariat of the Interreg EURO MED Programme. The meeting gathered all eight Governance projects of the four Programme Missions.

Andrea Di Girolamo attended the meeting as AIE project officer in charge of C4T.

The two-day meeting was fruitful in terms of joint work and collaboration. Participants had the opportunity to share the challenges faced by their projects across missions and explore many opportunities to join forces in building a successful new edition of the MED Academy, among other initiatives.

In particular, the C4T project demonstrated to the participants how it is engaging the community of 10 thematic projects related to tourism sustainability in the MED region, mainly through working groups and four Mediterranean Clusters. AIE participated in discussions on various topics such as the future edition of the MED Academy, thematic projects peer-review, stakeholder mapping and engagement, and more.

The C4T and D4I partnerships also gathered internally to plan the upcoming activities for 2024.

The AIE as partner of the Community4Tourism project has the pleasure to contribute to the dissemination of the guide entitled “**Blueprint for Tourism Climate Action Plans**”.

The guide is meant for tourism regional authorities and Destination Management Organizations (DMOs) and provides clear and adaptable guidance on how to develop a strategy for acting on climate, inspiring and enabling actions supporting adaptation to changing conditions and the reduction of tourism-related GHG emissions. It does this by providing the essential guidance necessary to create a Climate Action Plan.

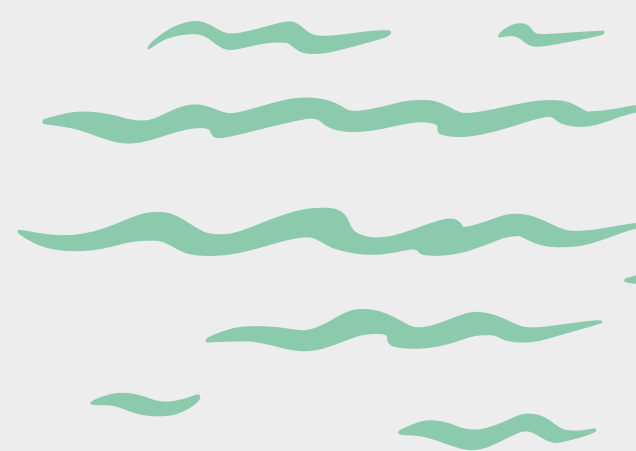

This guide was elaborated by the Travel Foundation, one of the co-authors of the **United Nation’s Glasgow Declaration on Climate Action in Tourism**, as commissioned by Community4Tourism. The document is tailored for the Mediterranean, but the majority of its principles can be applied in other geographical areas, such as the Adriatic and Ionian region.

The guide can be consulted by scanning the QRcode below:

HOW TO CREATE TOURISM SPECIFIC CLIMATE ACTION PLANS?

THE GUIDE FOR LOCAL AND REGIONAL AUTHORITIES

DIALOGUE4INNOVATION

MAIN DATA

Duration: January 2023 – December 2029
Programme: INTERREG EURO MED
Role of the Euroregion: Project Partner
Topic: *Innovative Sustainable Economy*
Lead Partner: Emilia Romagna Region (Italy)
Website:
www.innovative-sustainable-economy.interreg-euro-med.eu

IN A NUTSHELL

Dialogue4Innovation (D4I) is the Institutional Dialogue project funded by Interreg EURO MED Programme and coordinated by Emilia Romagna Region. The seven-year project falls under the programme's Mission "*Innovative Sustainable Economy*".

The project aims to support mission-oriented innovation policy and the creation of long-lasting conditions for a permanent dialogue on innovation in the Mediterranean. Dialogue4Innovation will work to increase the coordination, coherence and alignment of policies and actions for innovative sustainable economy at the basin scale.

Capacity building is one of the pillars of the project, which will develop tools to increase the capacity of policy makers and stakeholders to address the Sustainable Development Goals (SDGs) more effectively. By working with territorial actors through Transformative Innovation Policy Labs (TIPLs), the project will promote the diffusion of more systemic and integrated approaches, which are necessary to tackle the urgent challenges of the ecological transition.

D4I will contribute to improve the long-lasting conditions for a permanent institutional and social dialogue in the Mediterranean, bridging the transnational dimension with local solutions. It will become a reference platform for Mediterranean innovation ecosystem stakeholders aimed at fostering an open, inclusive, and effective governance, increasing the visibility and relevance of the Mediterranean instances at the European and international levels. To amplify its impact, the project will support Mediterranean challenge-driven multi-actor alliances. To meet its objectives, it will build on the outcomes of the Interreg Euro-MED thematic projects, narrowing the gap with the policy priorities (at local, regional, national, Mediterranean & European level) and promoting their integration in structural policies and practices.

On 28th and 29th of May, the AIE Secretariat participated in the Second Edition of the MED Innovation Camp in Barcelona (Spain), organised by the Government of Catalonia in collaboration with the European Commission's Joint Research Centre (JRC).

The event saw the participation of Smart Specialization Strategy (S3) experts, policy-makers, and Interreg Euro-MED projects partners. The meeting was useful to get inputs for developing the Transformative Innovation Policy Labs (TIPLs), virtual spaces oriented towards the needs and challenges of territories, as one of the core activities of Dialogue4Innovation in the coming years.

Innovation Camps are meeting spaces where the MED community gathers to address common challenges and put forward transformative action. Also, Innovation Camps are a way to promote the shared understanding of sustainable development challenges and Mediterranean priorities, allowing an open and facilitated debate among quadruple helix stakeholders.

The Government of Catalonia opened the event pointing out how SDGs can be profitably embedded in smart specialisation strategies if guided by a transformative and systemic approach.

A debate highlighted the importance of connecting MED projects and S3 strategies, conceiving cooperation projects as opportunities for embedding their results into policies at a structural level and into regional strategies.

Case studies about the depopulation in rural and remote areas in the Mediterranean were discussed as one of the main challenges, and participants engaged in hands-on exercises to collectively frame this challenge through a Multilevel Perspective Approach (MLP).

SECOND MED INNOVATION CAMP

The Innovation Camp also focused on the real core of the D4I project: the Transformative Innovation Policy Labs (TIPLs) that will be organised in 2025. The TIPLs will be virtual spaces aimed at identifying and tackling the needs and challenges of territories.

The AIE Secretariat participated also to the Steering Committee of D4I project to take stock of the MED Innovation Camp results and to discuss the next stages of the project in the Steering Committee. It was an important opportunity to validate the work so far executed and to refine the coordination and execution of the project activities, such as:

- the consolidation of the Mission Consultative Body (MCB), the first of two advisory boards acting as a close cooperation group of the project, the Mission and its related activities.
- the validation of the roadmap for the set-up and launch of the ISEC Hub, a community of like-minded individuals coming from the entire Mediterranean region to drive a shared mission: to boost a fair transition to sustainable economy through transformative innovation in the Mediterranean basin.

PROMONT

Protection and Regeneration
of Mountains

MAIN DATA

Duration: 02.09.2024 - 02.09.2027

Programme: Interreg IPA ADRION

Role of the Euroregion: Project Partner

Topic: *Environment and Nature Protection, Tourism in rural areas*

Lead Partner: Pieriki Anaptixiaki (Greece)

Website: coming soon

In this project, the AIE will be coordinating the Work Package "*Capitalisation and Transferring*", with the aim to enhance the potential replicability of the practices and tools that will be realized by the project.

KICK-OFF - MEETING IN VERONA

On Wednesday 20 November 2024 was held the project Kick-off-Meeting in Ferrara di Monte Baldo, a small municipality in the province of Verona (IT), as organised by the Baldo-Lessinia Local Action Group (LAG), project partner.

The first session of the kick-off meeting saw the participation of institutional representatives and project partners.

The event was also attended by a representative from the Joint Secretariat of the Interreg IPA ADRION programme.

Participants visited the Novezzina Botanical Garden, identified by the LAG Baldo-Lessinia as the project's pilot area for studying and conserving local biodiversity.

IN A NUTSHELL

PROMONT project focuses on ADRION rural areas with mountain relief, characterised by unique biodiversity as threatened by the unruled overexploitation of resources, by the unsustainable economic activities and by the seasonal mass-tourism that have led to pollution and overall loss of biodiversity. The overall objective is to protect and preserve the fragile and rich ecosystems of the Adriatic Ionian mountains by promoting actions for environmental regeneration involving and empowering local communities and stakeholders.

The project wants to foster a positive change of mindset about the human presence and its relation with mountain biodiversity: biodiversity and local communities will benefit from the success of the actions implemented by PROMONT, in the short and in the long term.

MEDITERRANEAN COOPERATION ALLIANCE

On 25 and 26 June 2024, in Barcelona, the Ministry for Foreign Action and European Union of the Government of Catalonia and the European Institute of the Mediterranean (IEMed), with the collaboration of the Alliance for Mediterranean Cooperation, organised the IV edition of the **MedCat Days 2024** under the title *"Tackling climate change in time of multiple crises in the Mediterranean"*.

With the slogan *"We are Mediterranean"*, the MedCat Days 2024 offered a space for meeting and dialogue, for advocacy and visibility at the service of the MED stakeholders.

The event analysed Euro-Mediterranean cooperative responses to challenges in the Mediterranean such as climate change and drought, emphasizing the importance of territorial and cross-border cooperation mechanisms, and ongoing innovative good practices.

The event also explored the impact of global crises on Euro-Mediterranean relations. Operating in crisis mode seems to have become the normal functioning modality in Euro-Mediterranean relations. Two years after the Covid pandemic started spreading across the globe, the Ukraine war erupted in 2022.

Neither the global health crisis nor the armed conflict in Eastern Europe were limited in their effects to the Mediterranean. Yet, both events had a significant toll on the region. More significantly, the Hamas attack on 7 October 2023 and the ensuing military operations of Israel in Gaza are likely to be a watershed moment for the region, although it is still too soon to figure out the full scale of the consequences.

These crises have at times paralysed or inhibited regional cooperation mechanisms and regional integration processes and generated renewed misunderstandings between partners. They have also challenged the efforts of those who have been tirelessly working to transform Euro-Mediterranean cooperation into an operational instrument to fight common and more structural crises such as climate change or economic and social justice in the Mediterranean. The current crisis in the Middle East will complicate the implementation of the *New Agenda for the Mediterranean* adopted in 2021 that has had the merit to pay renewed attention to issues such as the green transition or social and economic inclusiveness.
